About Us

SEPCON Safety Solutions is a subsidiary of SEPCON group which is a safety equipment and solutions provider to the industry. We specialize in a wide range of PPE, Fire Safety Equipment, Safety Storage & Handling, warning and alert systems for safety hazards and more.

We provide complete solution from safety products supply to its installation when and where needed. Committed to protecting lives and assets, we serve key industries with reliable and certified safety products.

Our Mission

To provide high-quality safety solutions and services that protect life and property, while ensuring customer satisfaction through integrity, innovation, and technical excellence.

Why SEPCON Safety Solutions

- Authorized Distributor of MSA Safety in Pakistan
- Extensive Safety Portfolio from supply to installation and After sales support
- Trained Technical Staff
- Safety Products Training
- Custom made Safety Solutions

Industries We Serve

SEPCON Engineering caters to a diverse range of industries, including oil & gas, construction, manufacturing, and infrastructure, where safety and precision are non-negotiable. Our solutions empower sectors with high-risk environments to operate efficiently while adhering to the strictest global standards.

Oil & Gas

Power Generation

Chemical & Petrochemical

Fertilizer

Food & Beverage

Health & Pharmaceuticals

Product Range

We supply wide range of safety Products including bot not limited to:

1. Personal Protective Equipment (PPE)

PPE is designed to protect workers from physical, chemical, and biological hazards. It includes:

Head Protection
(Hard hats, bump caps)

Hearing Protection
(Earplugs, earmuffs))

Eye & Face Protection
(Safety goggles, face shields, welding helmets)

Respiratory Protection
(N95 masks, respirators, SCBA)

Hand Protection
(Gloves – cut-resistant, chemical-resistant, heat-resistant)

Body Protection
(Coveralls, high-visibility vests, flame-resistant suits)

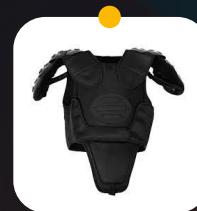

Fall Protection
(Harnesses lanyards, safety nets)

Foot & Leg Protection
(Steel-toe boots, anti-slip shoes, chemical-resistant boots)

Industrial proximity & fire entry suits

Anti riot Kit

Product Range

2. Fire Safety Equipment

Used to prevent, detect, and extinguish fires.

Fire Detection & Alarm Systems

(Smoke detectors, heat sensors, fire alarm control panels)

Fire Suppression Systems

(Sprinklers, CO₂ systems, foam extinguishers)

Fire Extinguishers & Fire ball

(Water, foam, CO₂, dry powder, wet chemical)

Fire Hoses & Reels

(Fixed or portable hoses for firefighting)

Fire Blankets

(For smothering small fires or wrapping around a person)

3. Safety Storage & Handling

Used for safe storage of hazardous materials.

Safety Cabinets

(Flammable storage cabinets, chemical storage cabinets)

Gas Cylinder Storage

(Secure racks and cages for compressed gas)

Product Range

4. Emergency Equipment

For immediate response to accidents or injuries

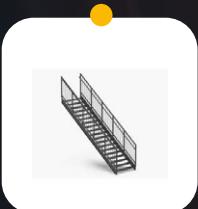

Emergency Showers & Eye Wash Stations
(For chemical exposure)

Emergency Exit Signs & Lighting
(For safe evacuation)

Warning sirens
(Fixed and Portable)

Fire Exit stairs

5. Machine & Electrical Safety

Prevents accidents related to machinery and electrical hazards

Machine Guards
(Barriers to prevent contact with moving parts)

Lockout/Tagout (LOTO) Devices
(For isolating energy sources during maintenance)

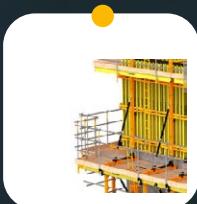

Arc Flash Protection
(Insulated tools, protective clothing)

Product Range

6. Fall & Height Safety

For working at elevated levels

Guardrails & Safety Nets

(Barriers to prevent contact with moving parts)

Safety Harnesses & Lanyards

(Active fall arrest systems)

Scaffolding Safety

(Stable platforms with toe boards)

7. Signage & Labelling

For hazard communication and safety instructions

Safety Signs and cordon off-Tape

(Warning, prohibition, mandatory, emergency signs)

Floor Marking Tapes

(For safe pathways, hazard zones)

8. Ventilation & Air Quality Control

For working at elevated levels

Fume Hoods
(For lab and industrial chemical handling)

Dust Extraction Systems
(Removes airborne particulates)

Gas Detectors
(Monitors toxic or explosive gases)

Product Range

9. Confined Space Safety

For entry into tanks, silos, and other restricted spaces

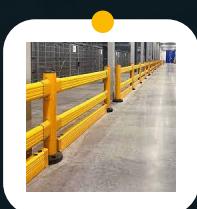

Confined Space Entry Kits
(Tripods, winches, harnesses)

Atmosphere Monitors
(Oxygen, H₂S, CO detectors)

10. Traffic & Vehicle Safety

For workplaces with moving vehicles

Barriers and Guard Rails

Traffic Cones & Safety Mirrors

High-Visibility Clothing

06

Our Team

Our strength lies in a dedicated team of professionals, including skilled sales staff, experienced accounts personnel, certified safety officers, project managers, and technical experts. Together, they ensure seamless operations, client satisfaction, and the highest standards in both engineering and safety solutions.
